

# Math - 6th Grade

## Course Overview:

The *Core Connections* courses are built on rich, meaningful problems and investigations that develop conceptual understanding of the mathematics and establish connections among different concepts. The lesson problems are non-routine and team-worthy, requiring strategic problem solving and collaboration. Throughout the course, students are encouraged to justify their reasoning, communicate their thinking, and generalize patterns.

Specific content focuses are: *Arithmetic strategies and Area, Portions and Integers, Variables and Ratios, Multiplying Fractions, Dividing and Building Expressions, Rates and Operations, Statistics and Multiplication Equations, Volume and Percents.*
