

Math - 7th Grade

Content Overview:

The *Core Connections* courses are built on rich, meaningful problems and investigations that develop conceptual understanding of the mathematics and establish connections among different concepts. The lesson problems are non-routine and team-worthy, requiring strategic problem solving and collaboration. Throughout the course, students are encouraged to justify their reasoning, communicate their thinking, and generalize patterns.

Specific content focuses are: *Probability, Fraction and Integer Addition, Arithmetic Properties, Proportions and Word Problem strategies, Solving Inequalities and Equations, Percents, Statistics and Angle Relationships, Circles and Volume.*
