Student Participation in State Tests

Public school districts and community schools are required by law to administer all required state tests to all students enrolled per grade level or course. There is no process allowing parents and/or students to indicate their choices to not participate in state testing. Schools must account for and report any student who did not take a required state test. Parents/guardians may request policies regarding student participation in state mandated testing.

Why do students take state tests?

State achievement tests tell us how well our students are growing in the knowledge and skills outlined in Ohio's Learning Standards. These tests help guide and strengthen future teaching so we can be sure that we are preparing our students for long-term success in school, college, careers and life.
